Family Trading Companies Service

Performance Factsheet
Q3 2026

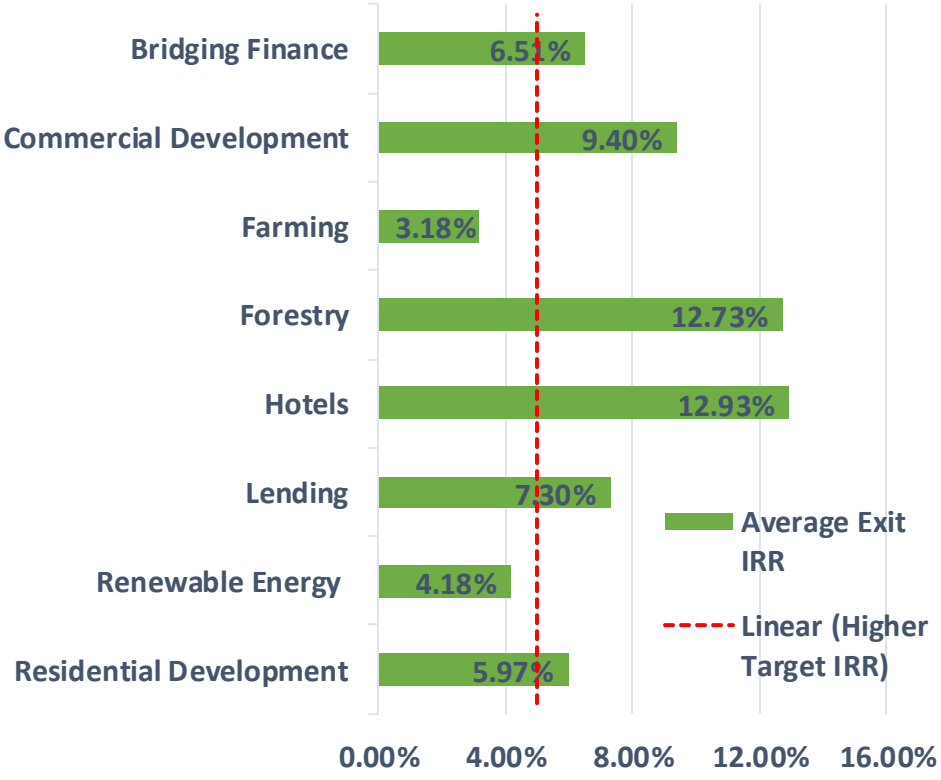

STELLAR

Family Trading Companies Service

The performance for partnerships held within our Stellar Family Trading Companies Service is reviewed against our target upon exit. This is the most accurate reflection of performance as a result of both the unique nature of each client's portfolio construction and performance characteristics seen in certain sectors which does not accrue linearly.

The table below shows the sector average IRR of all closed partnerships held within our Family Trading Companies Service.

*Average Sector Exit IRR (net of all fees)

Investors should note that performance does not accrue linearly and should be considered against each project's budget performance. Many projects have returns generated on asset valuations and others such as development projects generate returns when all units are sold. Past performance is not a reliable indicator of future performance and investors should not rely upon past performance when considering whether to invest in the Stellar Family Trading Companies Service.

On an individual partnership level, the table on the next page presents all closed partnerships held within our Family Trading Companies Service and the IRR achieved.

It is important to note that our Family Trading Companies Service operate across additional sectors to those listed in the tables shown. However, no exits have been made from such sectors yet, these include Golf and Care.

We are continuously looking to further diversify the Service. However, we remain diligent when committing to new deals.

Service Overview

Investment Manager
Stellar Asset Management Limited

Tax Objective
IHT Relief after two years

Investment Objective
Capital growth over the medium term

Target Return
3% - 5% per annum in the medium term

Structure
Discretionary portfolio

Elmbridge Partnership	Lending	11.50%
The Stellar Wind Energy EIS Fund	Renewable Energy	7.79%
Milton Keynes Partnership	Residential Development	5.50%
Great Oakley Development Partnership	Residential Development	8.50%
Nayland Development Partnership	Residential Development	3.90%
Easy Coffee Partnership*	Retail	-100.00%

*In July 2023 we wrote-down the holding in our Easy Coffee Partnership to nil. This partnership operated in the retail sector, one that was severely impacted by the COVID-19 pandemic. Investor capital committed to the partnership accounted for less than 2% of the Service AUM as of June 2023 and all individual investors exposed were also limited to stakes totalling less than 5% of their company's value. This nil value exit is not reflected in the Average Sector Exit IRR (net of all fees) graph.

Our Team

Jonathan Gain

CIO

Jonathan has been involved in financial services since 1993 when he graduated from Bournemouth University with a BA (Hons) in Accountancy. He joined the then newly formed Close Brothers Investment Limited in 1993 and was appointed Finance Director just five years later in 1998. In his role he was responsible for overseeing its property investment funds and numerous tax planning products, before becoming Managing Director in 2005.

When he left to set up Stellar, it had approximately £1 billion of funds under management. Drawing on his wide-ranging experience, Jonathan established Stellar Asset Management in 2007 along with the former founder of Close Brothers Investment Limited and two other colleagues. Jonathan remains the majority shareholder.

Outside of work he enjoys organising and participating in charity events, particularly sponsored cycle rides. He is a keen Manchester United supporter, as you would expect from someone who lives in the south! He also treats himself to a few days off work during the year to watch live cricket matches so he can follow the ups and downs of England's test cricket team.

David Stein

Investment Director

David, our Investment Director for Asset Backed Services, has been with Stellar for seven years and brings nine years of industry experience. He has a strong interest in real estate investment and is responsible for managing the underlying assets through every stage of the deal cycle. David is a CAIA Charter holder and graduated from the University of Nottingham with a BA (Hons) in History. Outside of work, David is a keen golfer and a Manchester United fan.

Daniel Edwards

Investment Analyst

Daniel joined Stellar's Investment Team in January 2022 as an Investment Analyst, having graduated from the University of Durham with a BA (Hons) in Geography.

Since joining the company, Daniel has been responsible for identifying and assessing new investment opportunities, alongside supporting the management and performance of Stellar's existing investment portfolio. His role encompasses financial analysis, investment due diligence and ongoing asset management, working closely with colleagues and external partners across a broad range of asset classes.

Daniel is currently working towards completing the Chartered Financial Analyst (CFA) qualification, having progressed to Level III. Outside of work, Daniel is a keen sportsman, having competed in both Premier League hockey and cricket, whilst he is currently working towards a scratch handicap in golf.

Important Information

Stellar Asset Management Limited does not offer investment or tax advice or make recommendations regarding investments. This document has been prepared for Stellar investors and their advisers. It is provided for information purposes only. Prospective investors should ensure that they read the product literature and fully understand the fee structure and the risk factors before making any investment decision.
